

OVERVIEW

Drumroll please...introducing the MiniZilla™ table, brought to you by LiteZilla™. The MiniZilla™ is not only a space to build and create using our rainbow colored LitePins, but it is also a color-changing light table! Hands-on and interactive, the MiniZilla™ provides engaging experiences through experiential, playful, kid-driven fun. They promote positive play with the exploration of light, art, and color.

Manually change the color of the LED backlight with provided remote, or set it to light show mode and watch and the rainbow colored LitePins™ dance with illumination. Showcase your imagination – without the mess of paint, markers, and slime!

OPERATION

1. Plug the unit in.

*Be sure any extra cord length is safe and out of the way of young children. Shorten the cord length by assembling the extra length in a loop and placing a zip tie around it.

2. Point the wireless remote at the top diffuser panel and press power on.

3. Control the color, brightness, and light activity using the remote.

DESIGN

To use the MiniZilla™ as a tabletop LiteZilla:

1. Place the black grid on top of the table until it sits in place. The holes in the grid have a chamfer edge making them safe for little fingers. This chamfer has been cut on each side. Therefore, the top is “reversible” so it doesn’t matter which side faces up.
2. Place the rainbow colored LitePins™ into the grid to create and design, pattern, or picture you wish.
3. Have fun!

To use the MiniZilla™ as a light table:

1. Remove the black grid and LitePins™ and set them aside.
2. This will reveal the illuminated diffuser panel.
3. Using as a tracing table: Place pictures and tracing paper directly on the diffuser. Trace the images to create drawings, use for 2-D animation, or trace over the work of masters to learn calligraphy or drawing.
4. Using Manipulatives: Place translucent blocks, shapes, letters or numbers directly on the diffuser. Change the light color to learn about color mixing. Create words, messages or simply sort the shapes to explore.
5. Using transparent magnet building blocks: Place magnetic building blocks and shapes directly on the diffuser. Watch as your colorful creations come to life as the light shines through your constructions.
6. Using agate slices: Bring mother nature inside! Place cut agate slices directly on the diffuser and light the agate to learn and explore science and geology.
7. Have fun!

CLEANING YOUR MINIZILLA

Wood Exterior: Wipe with mild solution of soap and water

Black HDPE grid and plastic diffusor below: Damp Cloth for dust and dirt or Disinfectant wipe (Clorox, Sani-Cloth, etc.) for deeper sanitation

LitePins™: Soak in a solution of soap and water with a drop of bleach or put in the dishwasher.

1-YEAR LIMITED WARRANTY:

This Limited Warranty applies to the MiniZilla table purchased from LiteZilla, LLC.

What does this limited warranty cover?

This Limited Warranty covers any defects in material or workmanship under normal use during the Warranty Period. During the Warranty Period, LiteZilla, LLC will repair or replace, at no charge, products or parts that prove defective because of improper material or workmanship, under normal use and maintenance.

What will we do to correct problems?

LiteZilla, LLC will ship replacement parts or a new MiniZilla table to your location within the USA at no charge.

How long does the coverage last?

The Warranty Period for the MiniZilla is 1-year from that date or purchase. The replacement MiniZilla table or part comes with a new 1-year warranty.

What does this limited warranty not cover?

This Limited Warranty does not cover any problem that is caused by: conditions, malfunctions or damage not resulting from defects in material or workmanship

What do you have to do?

To obtain warranty service, contact us at 1-833-LITEZILLA (1-833-548-3945) or by email at info@LiteZilla.com.

Strobe Mode WARNING:
Use strobe mode at your own risk. People with photo-sensitive epilepsy may be affected by strobe lighting and the effect may also produce undesirable sensations amongst the general population if used without due regard. LiteZilla, LLC assumes no responsibility in the event strobe effect is used and produces an undesirable effect.
